

## *A New Age of Dental Wellness*

### WHY CALL A HOUSE CALL DENTIST?

Your house call dentist brings the services of the traditional dental office to the residential care, assisted living and the house bound patient, offering more efficient dental diagnoses and the ability to start proper dental treatment immediately.

In this seminar, you'll learn the variety of treatment options suited to at-home dentistry and when it is important to contact a house call dentist. Good oral hygiene supports nutrition, hydration and health. Discover the connection between periodontal disease and Alzheimer's disease. Illuminate the best practices for performing oral care. Learn what you need to know to curb chronic infections and diseases. Discuss oral hygiene care challenges and oral health issues, including neglect. Gain strategies for working in partnership with dentists, primary care physicians, caregivers and families.
